PROFILE SUMMARY

Motivated and detail-oriented Quality Assurance Professional with hands-on experience in electronics manufacturing and incoming quality control, backed by a strong foundation in production line operations and UI/UX design. Experienced in IQC of electronic components, PCBs, and assemblies per AS9100D/ISO 9001 standards, with expertise in FAI, NCR/CAPA, ESD controls, and traceability documentation. Skilled in reducing line rejections and ensuring 100% compliance to engineering drawings and BOMs.

PROFESSIONAL EXPERIENCE

Quality Assurance Inspector

Dec 2025 – Present

SASMOS Ltd, Bengaluru

- Performed incoming inspection of mechanical and PCB components using vernier calliper, height gauge, and multimeter per ISO 9001 and AS9100D standards.
- Identified and contained non-conforming materials, reducing defect leakage into production and improving overall product quality.
- Executed inspection lots and usage decisions in SAP QM, ensuring traceability, accurate documentation, and inventory control for defence-grade assemblies.
- Collaborated with procurement, engineering, and production teams to resolve BOM discrepancies and reduce production readiness delays.
- Raised and tracked NCRs and initiated CAPA workflows, driving systemic quality improvements across multiple component categories.
- Maintained strict ESD control protocols, protecting sensitive electronic components from electrostatic damage during inspection and storage.

Production Line Operator

Feb 2025 – Jul 2025

Schneider Electric, Bengaluru

- Operated production line machinery adhering to quality, safety, and 5S housekeeping standards in a high-volume electronics manufacturing environment.
- Performed visual and dimensional inspection of assembled components, flagging non-conformances and coordinating corrective actions with the quality team.
- Maintained accurate records of production activities, defect logs, and downtime reports to support management decision-making.
- Consistently met daily production targets through cross-functional collaboration, contributing to a zero-defect culture on the line.

Graphic Designer

Jan 2024 – Feb 2025

Adwise, Payyanur

- Designed digital and print content including social media creatives, brochures, and brand assets using Adobe Photoshop and Illustrator.
- Created end-to-end website and mobile app UI/UX designs in Figma, covering wireframing, prototyping, and user flow documentation.
- Translated client briefs into polished visual deliverables within deadlines, achieving high client satisfaction.

EDUCATION

UI/UX Design Certification – Techmindz, Kochi

Aug 2023 – Nov 2023

Diploma in Computer Engineering – EKNMGPTC Trikkaripur, Kerala

Jun 2020 – Jun 2023

Micro Irrigation Technician – VPPMKPS GVHSS Trikkaripur, Kerala

Jun 2018 – Jun 2020

SSLC (Secondary School Leaving Certificate) – AVSGVHSS Karivellur, Kerala

Jun 2017 – Jun 2018

KEY SKILLS

- | | | |
|-------------------------------------|--|--|
| • Incoming Quality Control (IQC) | • Vernier Calliper, Height Gauge, Multimeter | • ISO 9001:2015 / AS9100D Standards |
| • BOM & Engineering Drawing Review | • First Article Inspection (FAI) | • NCR Raising & CAPA Management |
| • ESD Control & Handling | • SAP QM Module | • Assembly Line Operations & 5S |
| • Figma – Wireframing & Prototyping | • Adobe Photoshop & Illustrator | • UI/UX Design & User Flow Documentation |

LANGUAGES

- | | | |
|--------------------------------------|----------------------|------------------------|
| • English – Professional Proficiency | • Malayalam – Native | • Hindi – Read & Write |
|--------------------------------------|----------------------|------------------------|
