Education

Sri Siddhartha Institute of Technology

B.E in Electronics and Telecommunication

Dec 2021 – July 2025

Tumkur, Karnataka

Narayana PU College

Science - PCMC

May 2019 – July 2021

Bengaluru, Karnataka

Technical Skills

- **Languages :** Python, SQL
- **Tools :** SAP QM, MS Excel (Advanced), Power BI, MS Office
- **Analytical Abilities :** Data Analysis & Reporting, Root Cause Analysis, Supplier Quality Coordination

Experience

Quality Assurance Inspector

Dec 2025 – Present

Avirata Defence Systems

Bengaluru, India

- Performed incoming inspection of mechanical and PCB components using measuring tools (vernier caliper, height gauge, multimeter) in compliance with **ISO 9001 QMS** procedures.
- Identified and reported non-conforming materials, preventing defective components from entering production and reducing rework.
- Executed QM inspection lots in **SAP QM**, performed usage decisions, cleared materials, blocked non-conforming stock, and maintained inspection and MIS records.
- Coordinated with cross-functional teams to resolve BOM mismatches and documentation issues, ensuring accurate component availability.

Manufacturing Quality Engineer - Intern

July 2025 – Oct 2025

Bosch Automotive Electronics India

Bengaluru, India

- Developed a **Data-Driven Power BI Dashboard of ABS Verification Station failures** by collecting and cleaning production data with advanced Excel functions, enabling data visualization of key failure trends.
- Generated and analyzed daily Power BI reports on NOK parts and collaborated with engineers and cross-functional teams to perform **root cause analysis** and **drive process improvements**.
- Created and implemented an SOP for the Analysis WIP Monitoring Tool to ensure standardized processes and improved monitoring efficiency.
- Performed CCS functional test validations on non-conforming PCBA parts, ensuring adherence to quality standards and integrated test results into RCA analytical reports.

Projects

Fabindia 2025 Sales and Performance Dashboard | *GitHub Repo*

- Cleaned and analyzed 2025 sales data using Advanced Excel and built an interactive dashboard with Pivot Tables, Charts, and KPIs.
- Identified key insights such as 65% sales from women, 80% revenue from online channels, top-performing states, and monthly demand peaks, enabling clear customer segmentation.
- Provided data-backed recommendations for targeted marketing and channel optimization to support 2026 growth.

Power BI Dashboard for Production Failure Analysis

- Collected, cleaned, and analyzed production failure data using Excel functions & Power BI to identify key failure trends.
- Built dashboards to visualize defect frequency, error codes and time-to-failure trends, supporting root cause analysis.
- Collaborated with manufacturing teams to analyze failure trends and support defect reduction.

Certifications

1. Cognitiveclass.ai by IBM Developer Skills Network - [SQL and Relational Databases 101](#)
2. Indian Institute of Remote Sensing by ISRO - [AI/ML Geodata Analysis](#)

Extracurricular

- Coordinated annual sports-2024 at the college sports festival, attracting over **500+ participants** including staff.
- Awarded a **Certificate of Excellence** at ROBOVEDA '23 in the Cozmo Clench robotics competition at SNIST College in Hyderabad.
- Completed 2 years of NCC training; developed leadership, discipline, and teamwork through community service.
